Solo • Vita's Weight Management System

Featuring: GR²Control

GNLD's scientifically-proven program helps you lose weight and inches while improving your overall health. GR² Control empowers you to control your glycemic response and enables your body to burn fat for fuel, instead of storing it. You can lose weight without going hungry or feeling deprived. And, you can enjoy an abundance of different foods while on the program! You will lose weight while improving your chances for a new, healthier you - now and in the future.

GR²Control Features:

- It is backed by 3 years of intensive scientific research by the Scientific Advisory Board and the Global Science Network (scientists, researchers and nutrition professionals)
- It is scientifically proven to result in safe, rapid weight loss by re-educating your body toward lifelong healthier eating habits
- It utilizes leading-edge scientific knowledge to help you control your body's glycemic response, maximize fat burning and minimize fat storage
- It re-balances nutritional intake, focusing on healthier foods that create a controlled glycemic response

Elements of the Program:

Protein Shake: Keeps your glycemic levels in a safe range and satisfies your cravings!

Appetite Reducer: Exclusive formula enhances your feeling of fullness!

Thermogenic Enhancer: Unique herbal blend naturally re-energizes your metabolism!

GR²eat Bars: Available in two delicious flavours: Creamy Caramel and Luscious Lemon and are a perfect go-anywhere mini meal!

Eat: Enjoy a wide range of delicious food choices throughout the day!

GR²Control is a complete weight loss program that will help you gain a whole new life!

Typical weight loss ranges from 6 -10 lbs on the 2 week program. Solo-Vita provides you with all the support you need to achieve your weight loss goal, all in the privacy of your own home with your own food! Call us today to start your personal weight loss program!
